ICDP Support to Coffee Curing Units (Establishment and Upgradation)

The Coffee Board gives a subsidy on new or upgraded machinery for licensed coffee curing works. The 2026-27 round has closed, and the rules below describe the scheme for the next round.

What you may get

Subsidy of 40 percent of the cost of machinery bought and installed, up to Rs 25 lakh per curing unit. SHGs, FPOs, growers' cooperatives, women entrepreneurs, SC and ST and differently abled beneficiaries get 50 percent, up to Rs 30 lakh per unit. Eligible machines include pre-cleaners, de-stoners, hullers, peeler-polishers, colour sorters, dryers, graders and weighing and bagging systems. The money comes through PFMS after inspection and depends on funds.

Who it is for

Coffee curing works with a valid Coffee Board curing licence, whether run as an individual unit, partnership, private limited firm, SHG or growers' collective.

Main conditions

- The unit must hold a valid coffee curing licence issued by the Coffee Board, and it may be new machinery or an upgrade of existing machinery.
- The subsidy cannot be combined with any other Coffee Board scheme.
- The scheme does not apply to units that installed and started the machinery before the notification of 20 May 2026.
- Machines may be bought and installed only after the Board issues the feasibility report.
- Applications are taken first come first served, with priority to the North-East, women entrepreneurs, FPOs and SHGs, differently abled persons and SC and ST applicants.

Documents

- Notarised lease, rent or ownership document for the site
- Layout plan or blueprint of the facility
- Quotations from the machinery suppliers
- For the final claim: photo identity, original tax invoice, warranty certificate and photographs of the new machines
- Licences from the local authority, the Coffee Board curing licence, the State Pollution Control Board, the Department of Industries and the Department of Labour
- Bank pass book copy with account number and IFSC code
- Caste, community or disability certificate for SC, ST, minority and differently abled individual applicants

How to apply

1. When the Board opens a round, send the feasibility application in the prescribed Annexure I format with the lease, layout plan and quotations to the head of the Coffee Quality Division at the Coffee Board in Bengaluru, using the email given in the notification.
2. Buy, install and start the machinery only after the Board sends the feasibility report.
3. After the machines are running, submit the claim form (Annexure II) with the invoices, licences and photographs.
4. The Coffee Quality Division inspects the site, and approved subsidy is paid into your bank account through PFMS.
