Last checked: 20 October 2026 · Ministry of MSME (MSME Technology Centres)

Tool Rooms and Technical Institutions (MSME Technology Centres)

The Ministry of MSME runs 18 Tool Rooms and Technical Institutions, also called Technology Centres. They give small industry help with tools, dies, moulds, testing and consultancy, and train youth for industry jobs.

What you may get

Industrial units can use a Technology Centre for the design and making of tools, dies and moulds, materials testing, heat treatment, quality control, consultancy and job work. Youth and workers can join training courses, with entry levels from school dropout up to M.Tech.

Who it is for

MSME and other industrial units that need tooling and technical support, and youth or workers who want industry-ready skills.

Main conditions

- Technical services are meant for industrial units, with a focus on the MSME sector.
- Training courses take candidates from school dropout level up to M.Tech level, depending on the course.
- There are 18 such centres across India, each working in its own sector, such as general engineering, foundry and forging, electronics, fragrance, glass, sports goods and footwear, so pick the centre that serves your sector.
